# Introductory

The present volume constitutes the 1931 edition of Henderson's Directory of Brandon. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 9 to 40 and contains data concerning City, Provincial and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals, homes and asylums, building exchange and associations, institutes and societies, libraries, military organizations, public schools, secret societies, etc.

THE STREET AND AVENUE GUIDE is embraced in pages 41 to 88; in this feature the names of all streets and avenues are arranged alphabetically, giving the location, number of the street and showing the occupant.

The intersecting streets are shown in the order that they come.

THE ADVERTISING occupies pages 1 to 8; this section of the Directory, printed on colored paper, includes numerous advertisements of the leading manufacturing, business and professional interests. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the city Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LISTS OF NAMES of citizens, business firms and corporations covers pages 89 to 249.

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 250 to 288, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry of profession followed.

## ADVERTISING BRANDON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Brandon, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully, The Publishers

HENDERSON DIRECTORIES LIMITED.

### CITY WATERWORKS PUMPING STATION

The Waterworks Pumping Station is situated on the northwest corner of 26th Street and Macdonald Avenue and north of the C. P. R. tracks. It is  $1\frac{1}{2}$  miles west from the City Hall.

Superintendent and Chief Engineer—Robert McFarlane

Assistant Engineers—W. H. Turnbull, F. Lockhart, W. Jones.

The water supply is taken from the Assiniboine River. The water is received into a three-gate intake well on south bank of river and flows by gravity through a 40-inch underground intake to suction wells in pumping station which is 1,000 feet south of the river. The plant consists of

one two-million gallon per 24 hours D'Auria vertical type high duty pump, one three-million gallon per 24 hours D'Auria horizontal high duty pump. The pumps are operated by twin tandem compound engines equipped with the Corliss valves and can be operated condensing or non-condensing, and one steam turbine engine, centrifugal pump, capacity per 24 hours 1,150,000 gallons; eight 500,00 gallon pressure filters. Boilers, two 75 horse-power return fire tube boilers equipped with dumping and shaking grates and two 150 horse-power return fire tube boilers equipped with automatic chain grate stokers. A new 625,000 Imp. Gallon Elevated water tower and tank is now in course of erection and nearing completion, supplied by a newly constructed 12" water main over one mile long in addition to present main. The tank is located between Louise and Victoria Aves. and Park and Rideau Streets.

Buildings: Engine room 36x44 feet, two filter rooms, one 36x44 feet and one 33x60 feet, boiler room 30x44 feet and an addition to boiler room 46x82 feet. There are 2,800 domestic services, of which 2,775 are on meters, and 195 fire hydrants. A domestic pressure of 90 pounds is maintained at the Pumping Station, while for fire purposes it is raised to 140 pounds.

#### **PUBLIC WORKS AND IMPROVEMENTS**

The city has 35½ miles of water mains, 34.70 miles of sewers, 56 miles of granolithic sidewalks, 30 miles of graded streets, and 7½ miles of paved streets, 16½ miles of boulevards and 195 fire hydrants. Permanent steel and concrete bridges are constructed over the river at First and Eighteenth Streets.

Brandon, lat. 49.51, lon. 99.57, elevation at City Hall 1,255 feet above mean sea level.

#### **SYSTEM OF NUMBERING HOUSES**

The system of house numbering adopted by the City of Brandon is the Philadelphia or Decimal System. By this system an even hundred numbers are allotted to each block and the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on the street or avenue.

On avenues which run east and west a number is allotted to every twelve feet, and on streets which run north and south a number is allotted to every fifteen feet.

Odd numbers are located on the east and north sides, and even numbers on the south and west sides.

The affix "east" is used to indicate avenues that number eastward from First Street and the affix "north" is used to indicate streets that number northward from Pacific Avenue.

Pacific Avenue is taken as a basis for all streets running south starting at number 1 and going southward 100 to the block to the southern limits of the city.

Assiniboine Avenue is the basis for all streets running northward starting at number 1, going northward 100 to block to the northern limits of the city.

First Street is the basis and dividing line for all avenues which run east and west. Starting at 100 and going westward 100 to the block to the western limits of the city, and again starting at number 1 and going eastward 100 to the block to the eastern limits of the city.

Rosser Avenue and all avenues running westward from First Street are intersected as follows:

Number	Number
100 First Street	1000 Tenth Street
200 Second Street	1100 Eleventh Street
300 Third Street	1200 Twelfth Street
400 Fourth Street	1300 Thirteenth Street

600 Sixth Street	1500 Fifteenth Street
700 Seventh Street	1600 Sixteenth Street
800 Eighth Street	1700 Seventeenth Street
900 Ninth Street	

1800 Eighteenth Street and so on to Thirty fourth street and western boundary of the city.

Rosser Avenue East and all avenues running eastward from First Street are intersected as follows:

Number	Number
1 First Street	500 Rideau Street
100 Dennis Street	600 Franklin Street
200 Russell Street	700 Percy Street
300 Frederick Street	800 Douglas Street
400 Park Street	900 Tenth Street
1000 Eleventh Street and so on to Seventeenth Street and eastern boundary of the city.	

First Street is a basis for all streets running southward from Pacific Avenue west of First Street, which are intersected as follows:

Number	Number
1 Pacific Avenue	800 College Avenue
100 Rosser Avenue	900 Park Avenue
200 Princess Avenue	1000 Southern Avenue

600 McTavish Avenue	1400 Spadina Avenue
700 Van Horne Avenue	
1500 Wellington Avenue, the southern boundary of the city.	

### TRANSPORTATION FACILITIES

The city is connected by three great trunk lines, viz : the Canadian Pacific, Canadian National and Great Northern Railways.

Brandon is the second divisional point on the C. P. R. System west of the Manitoba boundary in the very heart of the Province.

The Canadian National Railway Company's new main line from Port Arthur to Regina gives Brandon a fast through passenger service. This Company realizes that Brandon is one of its most important divisions.

The Great Northern terminal from St. Paul is located in the business centre of the city. Its handsome passenger depot facing and extending across Twelfth Street close to Rosser Avenue, substantial brick offices have been erected by the Company adjacent to its passenger depot.

Brandon Municipal Railways owns and operates 10.31 miles of track, 10 motor cars, 10 trail cars, 1 snow sweeper, 2 direct current motors supplying a total power of 807 K W. 550-600 volts power purchased from The Canada Gas & Electric Corporation, Limited.

N.B.—Customs and Inland Revenue Departments amalgamated on March 31st, 1921, into "Customs and Excise Department."

## **DOMINION EXPERIMENTAL FARM**

The Experimental Farm is adjacent to the city on the northwest, the farm buildings being about  $2\frac{1}{2}$  miles from the business centre. The farm is 652 acres in extent, four hundred of which are in the valley of the Assiniboine River and the balance on the sloping sides and upland. There is thus a variety of soil and exposure.

The farm was established in 1883 by the Government of Canada for the purpose of testing varieties of grain, fodder, crops, roots, vegetables, fruits, trees, etc., and of testing methods of handling the land best suited for Manitoba conditions. Feeding experiments are also conducted with cattle, swine, sheep, etc.

The farm is open for the general public to visit. About 10,000 on an average visit the farm annually, principally during midsummer when the crops are looking the best

After the new ones come out  
your advertisement in the di-  
rectory is still good, for old  
directories are seldom dis-  
carded while they hold to-

these directories will still be  
in active use. Your advertise-
